

ACTION TAKEN REPORT

Online Feedback for the 2019-2020 academic year has been collected from the stakeholders and analyzed. The analysis revealed that most parameters of the student satisfactory survey meet satisfaction levels. The IQAC and Deans committee commend the faculty members for their efforts. However, the committee suggests enhancing opportunities for internships, student exchanges, placement and field visits for students. These recommendations have been communicated to the departments and clubs during the HoDs meeting. In the staff meeting, the staff members were asked to develop their communication skill. The staff members were asked to improve their methodology of using teaching aids. The extracurricular activities were added to the students. The teachers were suggested to put emphasis on soft skill development sessions both internally and externally organized. Teachers were encouraged to prioritize soft skill development sessions, both those organized internally and those facilitated externally. Since the classes were held online, it was recommended to include more illustrations and examples to aid in the understanding of concepts.
