DEPARTMENT OF COMPUTER SCIENCE Guest Lecture On Artificial Intelligence

The Department of Computer Science conducted Guest Lecturer on “Artificial Intelligence” for our Department Students on 28th January 2022 between 11:00 PM to 12:00 PM through Google Meet. The Resource person for the webinar was **Dr.J.Lakshmi**, Associate Professor, PG Department of Computer Science, **Bhaktavatalam Memorial College for Women**, Chennai. Artificial intelligence (AI) is the ability of a computer or a robot controlled by a computer to do tasks that are usually done by humans because they require human intelligence and discernment by definition.

She explained about its three types namely Artificial Narrow Intelligence (ANI) , Artificial General Intelligence (AGI) , Artificial Super Intelligence (ASI). She explained these types of AI with examples. She also denoted that An artificial brain (or artificial mind) is software and hardware with cognitive abilities similar to those of the animal or human brain. The ultimate goal of creating a machine exhibiting human-like behavior or intelligence is sometimes called strong AI.
