

## Introduction

The Institution's Innovation Council (IIC) of Nazareth College of Arts and Science has been actively working to foster an innovation and entrepreneurship culture within the college. In line with this mission, the IIC has insisted on the organization of various events such as workshops, sessions, expert talks, and competitions across multiple themes. These themes include IPR and Technology Transfer, Innovation and Design Thinking, Entrepreneurship and Startups, and Pre-Incubation and Incubation Centres. All departments within the college have been encouraged to periodically conduct self-driven activities to contribute to these objectives.

## Departmental Self-Driven Activities

Each department within the college has taken the initiative to periodically conduct activities that align with the IIC's goals. These self-driven activities conducted include:

1. IIC and M.Sc. Computerscience department collaborated with IQAC and conducted a Workshop on IoT in Education based on the title 'Unleashing Creativity with Raspberry Pi: Exploring the Possibilities of IoT in Education' on 21.03.2024.

2. Entrepreneurial Sale Cum Exhibition was conducted by Department of Commerce

3.Session on IPR – A Korean Perspective Resource Person : Mr Shin Hee Lee, Lecturer, Handong University, SouthKorea.
