B.Sc. DEGREE PROGRAMME IN COMPUTER SCIENCE
SYLLABUS WITH EFFECT FROM 2023-2024

Year: I

Semester: II

Problem Solving Techniques	125S2B
Credits 2	Lecture Hours:2 per week
Learning Objectives: (for teachers: what they have to do in the class/lab/field) - To understand the importance of algorithms and programs, and to know of the basic problem-solving strategies. - To learn efficient strategies and algorithms to solve standard problems, thus laying a firm foundation for designing algorithmic solutions to problems.	
Course Outcomes: (for students: To know what they are going to learn) CO1: Understand the systematic approach to problem solving. CO2: Know the approach and algorithms to solve specific fundamental problems. CO3: Understand the efficient approach to solve specific factoring-related problems. CO4: Understand the efficient array-related techniques to solve specific problems. CO5: Understand the efficient methods to solve specific problems related to text processing. Understand how recursion works.	

Units	Contents
I	Introduction: Notion of algorithms and programs – Requirements for solving problems by computer – The problem-solving aspect: Problem definition phase, Getting started on a problem, The use of specific examples, Similarities among problems, Working backwards from the solution – General problem-solving strategies - Problem solving using top-down design – Implementation of algorithms – The concept of Recursion.
II	Fundamental Algorithms: Exchanging the values of two variables – Counting - Summation of a set of numbers - Factorial computation - Sine function computation - Fibonacci Series generation - Reversing the digits of an integer – Base Conversion.
III	Factoring Methods: Finding the square root of a number – The smallest divisor of an integer – Greatest common divisor of two integers - Generating prime numbers – Computing the prime factors of an integer – Generation of pseudo-random numbers - Raising a number to a large power – Computing the nth Fibonacci number.
IV	Array Techniques: Array order reversal – Array counting or histograming – Finding the maximum number in a set - Removal of duplicates from an ordered array - Partitioning an array – Finding the kth smallest element – Longest monotone subsequence.
V	Text Processing and Pattern Searching: Text line length adjustment – Left and right justification of text – Keyword searching in text – Text line editing – Linear pattern search. Recursive algorithms: Towers of Hanoi – Permutation generation.

Year: I

Semester: I

Foundation Course: Fundamentals of Computers (Common to B.Sc.-CS with AI, CS with DS, Software Appl. & BCA)	125B1A
Credits 2	Lecture Hours: 2 per week
Learning Objectives: (for teachers: what they have to do in the class/lab/field) • to understand fundamentally the general scope of the computer system • to interact effectively with the computer • to know the uses of the basic components of the computer • to manage the system to some extent before involving an expert • to know some basic things about the computer and the world	
Course Outcomes: (for students: To know what they are going to learn) CO1: Fundamental concepts of computer CO2: Fundamental mathematical techniques and how they relate to computer CO3: The architecture of processing and file storage in a computer system CO4: Basic operations of operating systems CO5: A variety of software packages applicable to an academic, software development and business environment	

Units	Contents
I	Understanding the Computer: - Introduction - Evolution of Computers - Generations of Computers - Classification of Computers - Computing Concepts - The Computer System - Applications of Computers. Computer Organisation and Architecture: - Introduction - Central Processing Unit - Internal Communications - Machine Cycle - The Bus - Instruction Set. Memory and Storage Systems: - Introduction - Memory Representation - Random Access Memory - Read Only Memory - Storage Systems - Magnetic Storage Systems - Optical Storage Systems - Magneto Optical Systems - Solid-state Storage Devices - Storage Evaluation Criteria. Input Devices: - Introduction - Keyboard - Pointing Devices - Scanning Devices - Optical Recognition Devices - Digital Camera - Voice Recognition System - Data Acquisition Sensors - Media Input Devices. Output Devices: - Introduction - Display Monitors - Printers - Impact Printers - Non-impact Printers - Plotters - Voice Output - Systems - Projectors - Terminals
II	Computer Codes: - Introduction - Decimal System - Binary System - Hexadecimal System - Octal System - Binary Coded Decimal (BCD) Systems - Unicode. Computer Arithmetic: - Introduction - Binary Addition - Binary Multiplication - Binary Subtraction - Binary Division - Signed/unsigned Numbers - Complements of Binary Numbers - Binary Subtraction Using Complements - Representing Numbers - Integer Arithmetic - Floating-point Arithmetic

Digital Storytelling and Scriptwriting (SEC-I) (Practical)

Course Description

This course provides an introduction to digital storytelling and scriptwriting. Students will learn the terminology and principles of story design, as well as the structure of a story using the three-act structure, Freytag's pyramid, the Hero's Journey, and Dan Harmon's story circle. The course also covers the basics of scriptwriting, including the definition and meaning of a script, script preparation, and screenplay formatting.

The development of a script is explored in detail, with an emphasis on the process of script development and strategies for successful scriptwriting. The course will also cover storytelling techniques and the different types of scripts, including those for fiction, non-fiction, documentaries, commercials, PSAs, news, radio, videogames, standalone scripts, and spec scripts.

Additionally, students will learn about elements of story analysis, cultural practices in storytelling, and approaches to story analysis, such as McKee's story analysis approach and the narrative paradigm. Finally, the course will introduce Photovoice, a method of storytelling through slideshows and photographs with sound.

By the end of the course, students will have developed a solid understanding of digital storytelling and scriptwriting, as well as the tools to create their own compelling scripts and stories across a variety of mediums.

Course Objectives

1. To understand the process involved in writing script and story development
2. To demonstrate understanding of techniques, principles, genres of story, and scriptwriting

Image Editing and Color Management (Practical)

Course Description:

This comprehensive course on Image Editing and Color Management is designed to equip learners with the knowledge and practical skills required to excel in the field of digital photography. The course is divided into five units, each containing four lessons that cover a wide range of topics including the fundamentals of photo editing, advanced photo editing techniques, color management, workflow optimization, and output. The course also includes fifteen practical exercises that provide learners with hands-on experience in using various photo editing software and tools to enhance and manipulate digital images. Through this course, learners will gain a deep understanding of the importance of photo editing and color management in digital photography. They will learn how to use different photo editing software and tools to adjust exposure, color, contrast, and sharpness to achieve the desired results. They will also learn how to manage color profiles and optimize images for different output formats including print and web. Overall, this course is ideal for anyone looking to pursue a career in digital photography or enhance their existing knowledge and skills in photo editing and color management.

Course Objectives:

1. Understand the fundamental principles of digital photography and the importance of photo editing in enhancing digital images.
2. Master the use of various photo editing software and tools to manipulate images, including cropping, exposure and color correction, black and white conversion, and advanced retouching techniques.
3. Develop advanced photo editing skills and techniques such as selective color correction, split toning, and creative color grading to enhance the visual impact of digital images.
4. Demonstrate the ability to manage color profiles and optimize images for different output formats, including print and web, while maintaining color accuracy and consistency.
5. Apply critical thinking and problem-solving skills to identify and resolve common issues in digital images, such as lens distortion, perspective distortion, and noise, using a range of photo editing techniques and tools.

Detailed Syllabus:

Unit 4: Color Management

Understanding Color Grading: Introduction to color grading and its importance in photo editing, Overview of different color grading techniques and styles, Understanding color grading tools and software, Techniques for achieving a consistent color grade across a series of images; Color Correction Techniques: Techniques for correcting color casts and color balance, Introduction to selective color correction, Overview of split toning and cross-processing techniques, Understanding the use of curves and levels for color correction, Implementing color correction techniques in photo editing software; Creative Color Grading: Techniques for creating stylized and creative color grades, Introduction to film emulation and cinematic looks, Overview of color theory for storytelling and mood, Techniques for creating vintage, retro, and other creative looks, Implementing creative color grading techniques in photo editing software; Skin Tone Correction: Techniques for correcting skin tones in portraits, Understanding the importance of accurate skin tones in photography, Introduction to skin tone adjustment tools and software, Techniques for achieving natural-looking skin tones in portraits, Implementing skin tone correction techniques in photo editing software; Batch Color Correction and Grading: Understanding batch processing and its importance in color grading and correction, Overview of workflow optimization techniques for color grading and correction, Introduction to scripting and automation for batch color grading and correction, Techniques for achieving a consistent color grade across a series of images, Implementing batch color correction and grading techniques in photo editing software

Unit 5: Workflow Optimization and Output

Batch Processing and Workflow Optimization, Understanding batch processing and its importance in photo editing, Overview of workflow optimization techniques, Introduction to scripting and automation in photo editing software, Implementing batch processing and workflow optimization techniques in photo editing software; Printing and Color Management: Understanding the importance of color management in print output, Overview of different types of printing processes, Introduction to color profiles for different printing processes, Implementing color management for print output in photo editing software; Web Output and Optimization: Overview of different web image formats, Techniques for optimizing web images for speed and quality, Introduction to responsive images and web design, Implementing web output and optimization techniques in photo editing software; Presentation and Display: Understanding the importance of presentation and display, Overview of different display technologies, Introduction to color calibration for display, Implementing presentation and display techniques in photo editing software

Detailed Practical Exercises

Exercise 1: Cropping and Composition, Take a set of photos and crop them to improve the composition, Experiment with different aspect ratios and rule of thirds, Use photo editing software to adjust brightness, contrast, and color balance, Save the final images for print and web output

Exercise 2: Exposure and Color Correction, Take a set of photos with different exposure settings, Use photo editing software to correct exposure and adjust brightness and contrast, Apply color correction techniques to correct any color casts or imbalances, Save the final images for print and web output

Exercise 3: Sharpening and Noise Reduction, Take a set of photos with different levels of sharpness and noise, Use photo editing software to apply sharpening and noise reduction techniques, Experiment with different sharpening and noise reduction settings to achieve the desired results, Save the final images for print and web output

Exercise 4: Black and White Conversion, Take a set of photos and convert them to black and white, Experiment with different black and white conversion techniques, Use photo editing software to adjust contrast, brightness, and tone, Save the final images for print and web output

Exercise 5: Raw Processing and Color Management, Take a set of RAW images and process them using RAW processing software, Apply color management techniques to ensure accurate colors and a consistent color profile, Use photo editing software to adjust brightness, contrast, and color balance, Save the final images for print and web output.

Exercise 6: Advanced Color Correction Techniques, Take a set of photos with challenging color casts or imbalances, Use selective color correction and split toning techniques to correct the colors, Experiment with different color grading techniques to create a consistent look and feel, Save the final images for print and web output

Exercise 7: Retouching and Restoration, Take a set of photos with imperfections or blemishes, Use photo editing software to retouch and restore the images, Experiment with different retouching and restoration techniques, Save the final images for print and web output

Exercise 8: Compositing and Masking, Take a set of photos and create a composite image, Use masking techniques to blend the images seamlessly, Experiment with different layer blending modes and options, Save the final images for print and web output

Exercise 9: Advanced Layers and Blend Modes, Take a set of photos and create a multi-layered image, Experiment with different layer blending modes and options, Use layer masks and adjustment layers to fine-tune the image, Save the final images for print and web output

Exercise 10: HDR and Panorama, Take a set of photos and create an HDR image or panorama, Use photo editing software to stitch the images together, Experiment with different tone mapping and exposure fusion techniques, Save the final images for print and web output

Exercise 11: Color Correction and Grading, Take a set of photos with different color casts or imbalances, Use photo editing software to correct the colors and apply a consistent color grade, Experiment with different color grading techniques and styles to achieve the desired results, Save the final images for print and web output

Exercise 12: Color Management and Calibration, Calibrate your monitor using a colorimeter or other calibration tool, Use photo editing software to adjust the color profile of a set of photos, Experiment with different color spaces and profiles to achieve accurate colors and a consistent color profile, Save the final images for print and web output

Exercise 13: Skin Tone Correction and Grading, Take a set of portraits and correct any skin tone imperfections, Use photo editing software to apply a skin tone correction and grading, Experiment with different skin tone correction and grading techniques and styles to achieve the desired results, Save the final images for print and web output

Exercise 14: Batch Color Correction and Grading, Take a set of photos and apply a batch color correction and grading, Use photo editing software to automate the process using presets or templates, Experiment

with different batch processing and automation techniques to achieve the desired results, Save the final images for print and web output

Exercise 15: Color Grading for Different Display Technologies, Take a set of photos and apply a color grade for different display technologies, Use photo editing software to adjust the color profile for each display technology, Experiment with different color grading techniques and styles for each display technology, Test the final images on different displays and evaluate the color accuracy and quality

Exercise 16: Print Output, Select a set of photos and prepare them for print output, Apply color management techniques to ensure accurate colors and a consistent color profile, Use photo editing software to adjust brightness, contrast, and color balance for print output, Print the final images and evaluate the print quality

Exercise 17: Web Output and Optimization, Select a set of photos and prepare them for web output, Optimize the images for speed and quality, Experiment with different web image formats and sizes, Test the final images on different devices and web browsers

Exercise 18: Presentation and Display, Select a set of photos and prepare them for a digital presentation or display, Apply color management techniques to ensure accurate colors and a consistent color profile, Experiment with different display technologies and devices, Test the final images on different displays and evaluate the color accuracy and quality

Exercise 19: Exercise 1: Restoring a Damaged Photograph, Find an old photograph that has been damaged or degraded over time., Scan the photograph at a high resolution to create a digital copy., Use photo editing software to restore the photograph, paying close attention to areas that have been damaged or degraded, such as scratches, dust, or faded colors, Enhance the overall quality of the image.,

Exercise 20: Use advanced restoration techniques such as cloning, healing, and patching to restore areas that have been damaged or removed., Experiment with different restoration techniques and compare the results to determine the most effective method for each area of the photograph., Save the final restored image as a high-quality digital file and create a print for preservation.

Course Outcomes:

1. Demonstrate a comprehensive understanding of digital photography principles and the importance of photo editing, and apply this knowledge to produce high-quality digital images.
2. Utilize a range of photo editing software and tools to manipulate digital images, and demonstrate proficiency in basic and advanced photo editing techniques, including color correction, retouching, and composition.
3. Apply critical thinking and problem-solving skills to analyze and address common issues in digital images, such as color imbalances, exposure problems, and lens distortion.
4. Apply color management principles to achieve consistent and accurate color profiles across different output formats, including print and web.
5. Develop a strong creative vision for digital image editing, and demonstrate the ability to create unique and compelling images using a range of creative techniques, such as selective color grading and split toning.

Digital Drawing and Painting (Practical)

Course Description

The Digital Painting and Drawing course provides an in-depth understanding of the art and science of creating paintings and drawings for visual effects, film, and video game industries. This course is designed for artists, graphic designers, and animators who want to learn how to create realistic environments, landscapes, and backgrounds for film, television, and video games. The course starts with an introduction to digital painting and drawing and tools required for creating digital painting and drawing. The course covers various techniques of creating digital painting and drawing such as perspective drawing, color composition, texturing, and camera projection. In addition to these techniques, the course also focuses on creating various illustration styles, such as charcoal, pastel, and watercolor. The course also includes practical exercises that provide hands-on experience in creating digital painting and drawing for various genres like sci-fi, fantasy, and cyberpunk. Students will have an opportunity to work on projects like creating multi-plane parallax set-ups, camera projection, and transitions from day to night or changing seasons. Upon completion of the course, students will have a strong foundation in creating digital painting and drawing and will have a solid understanding of the tools and techniques used in the industry.

Course Objectives

1. Develop an understanding of Digital Painting and Drawing as an art form and as a visual effects technique, including the ability to differentiate it from other related disciplines such as concept art and fantasy art.
2. Acquire practical skills in digital painting and drawing tools and techniques, including using a digitizing tablet, customizing brushes, and creating patterns and textures.
3. Learn to apply fundamental principles of perspective, color, and lighting in the creation of paintings and drawings, including using atmospheric perspective, vanishing points, and different types of lighting.
4. Gain proficiency in compositing and integrating matte paintings with live action or 3D elements, including using camera projection, multi-plane setups, and compositing techniques.
5. Develop advanced skills in Digital Painting and Drawing, including creating environments and transitions, incorporating visual effects such as smoke and fire, and creating simulated natural phenomena such as precipitation.

Note: While open source software for Digital Matte Painting such as GIMP/InkSpace, Krita is the recommended. However, each institution/college can choose to train the students in any other open source or commercial alternative such as Adobe Creative Cloud Suite Apps, Procreate, Mental Case etc.

Detailed Syllabus

Digital Painting and Drawing Record

Students should keep a record of their Digital Painting and Drawing works in the form of album or a slideshow. If reference images are used, both the original and recreated Digital Painting/Drawing should be presented side-by-side in the record. A minimum of five Digital Paintings from various genre will be the minimum requirement. A Description of Intent, Purpose and Vision for each Digital Matte Painting should be included.

Practical Examination

Practical examination could be in the form of viva, testing students procedural knowledge, evaluation of Practical Examination techniques. Students can also be asked to create a Practical Examination for practical demonstration of their competency. Viva or Written examination can be based on the Procedural Knowledge on the Practical Examination software. Students should be able to explain what technique, brushes or pipeline/workflows were deployed.

Unit 1: Introduction about Digital Painting and Drawing

Basic geometrical shapes: circle, triangle, square, rectangle, and ellipse, Creating depth and volume using light and dark tones; Creating and drawing organic shapes; Gradients, Brush stroke, ruler and grid, Rule of third, Light and shadow.

Understanding the difference between Concept Art and Fantasy Art, thumbnail sketching and ideation, working in software using the Pen Tablet, converting paper to digital, file format and file size, aspect ratio, 2K Resolution. Paint vs. pixels vs vector.

Photoshop/GIMP Workspace, The Basic Tools for Painting in Photoshop/GIMP - layers concept, smudge, blur, Overlays, texture, various shapes and sizes of brushes, using and making custom brushes, brush palette, working with paint tools, mask and layer adjustments, setting up your workspace, Photoshop/GIMP Panels, working with image-based brushes, digitizing tablet.

Unit 2: Perspectives, Color, Texturing

Perspective basics - one point, two points and three points, understanding the significance of vanishing point and horizon line, eye level, above eye level, below eye level, working with atmospheric perspective, field of vision, overlapping objects and creating depth in the composition.

Perspective Drawing - setting up your vanishing points, drawing the basic shapes in perspective, drawing buildings and environment, adding fine details.

Colors - colour composition, effects of colour on perspective, colour shades by atmosphere lighting, highlight, mid tone, shadow, hue and saturation, working with colour correction, merge by colour tone and proportion.

Texturing and color correction, blending modes, finding and working with reference photos, levels and curves in color correction, lighting the scene, creating the sky, understanding different themes of patterns: floral, abstract, geometric, making your own patterns, applying pattern textures, texture libraries, creating texture in drawing: fur, hair, feathers, wood grain, Drawing surfaces: metal, glass, water, fabric.

Unit 3: Camera, Lighting and Composition

Camera projection: Preparing Your Photoshop/GIMP File for Camera Projection in Blender/Maya/Unreal Engine, setting up for camera projection, adding the image plane, positioning the camera using the reference grid.

Lighting techniques, day-for-night, preparing the daytime plate, preparing the night time plate, adding life to the city, relighting, the night sky.

Image composition, background making, paint material and software layer distribution, understanding the depth of field, multi-plane set up in compositing, matte layers extractions matching with 3D objects or live action. Form, finding the light and dark sides, cast shadows, cores, final form layer, adding the line drawing using light and shadow to create form and volume.

Unit 4: Genres of Digital Painting

Changing Seasons, the Summertime Plate, the Wintertime Plate, Dusk
Charcoal Drawings in Photoshop/GIMP, Charcoal Techniques, Bridal Portrait with Tiny Charcoal Marks, Landscape Rendering with Smudgy Charcoal Look, Conte and Charcoal Rendering
Pastel Drawing in Photoshop/GIMP, Pastel Techniques, Making a Pastel Brush, Printing Considerations
Painting with Watercolors in Photoshop/GIMP, Watercolor Technique, Watercolor Brushes, Pattern Stamp Watercolor Technique, Brush Watercolor Technique, Simple Two-Layer Watercolor Painting
Painting with Oil Paints in Photoshop/GIMP, Impasto Technique, Bevel and Emboss Layer Style Oil Painting, Portrait Painting Using Bevel and Emboss, Printing Considerations
Illustration Techniques in Photoshop/GIMP, Stylize – Find Edges Illustration Technique, Faux HDR Illustration, Pen-and-Ink with Aquatint Illustration, Dreamy Soft Focus Effect, CutOut Illustration

Unit 5: Advanced Techniques

Using Third-Party Add on for enhancing drawing and painting quality.

Detailed Practical Exercises for Digital Painting and Drawing

(Any Five from the Following Exercise for Digital Record)

Students/College Can Alternatively Adopt Conventional Hand Drawing Techniques for Practical Exercises

- Exercise 1: Create a concept environment using only 2 reference images.
- Exercise 2: Create a stylized painting of a sci-fi city using only basic shapes and custom brushes.
- Exercise 3: Create an transition from day to night of a landscape using color correction and lighting techniques.
- Exercise 4: Create a multi-plane parallax set up for a busy marketplace scene using 2D images.
- Exercise 5: Create a photo realistic castle environment for camera projection.
- Exercise 6: Create a stop motion effect using still frames of a character walking through different environments.
- Exercise 7: Create a 3 paintings of changing seasons using matte layers.
- Exercise 8: Create charcoal and pastel style matte paintings using custom brushes.
- Exercise 9: Create watercolor and oil painting style matte paintings using custom brushes and layer styles.
- Exercise 10: Create three different illustration styles like pen & ink, stylized and soft focus using filters and effects.
- Exercise 11: Create visual effects like smoke, fire, clouds using third party plug-ins and compositing.
- Exercise 12: Create a sci-fi vehicle in a futuristic city environment.
- Exercise 13: Create a neon sign for a building at night in a cyberpunk city environment.

BOOK SWAP@NAZARETH LIBRARY-2023-2024

BOOK SWAPPING:

Book swapping or Exchanging is the practice of giving your books to other readers and getting theirs to improve reading habit. It paves an inexpensive way for people to exchange books and to get a chance to read books that they have not read so far.

OBJECTIVES:

Goal: To encourage student and staff to think critically about the books that they own and to learn about the concepts of book swapping.

Nazareth College of Arts and Science Library conducted Book Swapping Programme on 23.02.2024. Student and Staff swapped their books.

WORKSHOP ON JEWELRY MAKING

REPORT

DATE: 17/11/2023

The Nazareth Business Learning Centre and the Nazareth Centre for Skill Development jointly organized a 'Workshop on Jewelry making'. This workshop was organised on November 17, 2023 from 10:00 am onwards in seminar hall. The objective of the workshop was to train the students as entrepreneurs in jewelry making. A total of 35 students from various departments participated in the workshop. Ms. Geetha and Mr. Thomas, trainers from Pidilite Industries limited, a concern of Fevicryl trained the students to make earring and pendant using mouldit clay. The students were provided with fevicryl materials for hands-on training on payment of Rs. 200 per student.

Learning Outcome:

Participants learnt new techniques in jewelry making. The students designed one set of jewelry of their own. The program was an eye opener for the students who want to become entrepreneur.

REPORT ON ENVIRONMENTAL CLEANING

National cadet corps of Nazareth college of arts and science conducted an NCC cadets conducted an **ENVIRONMENTAL CLEANING** event on 24th October 2023 at Avadi Market to promote cleanliness and raise awareness about the importance of maintaining a clean environment. The initiative aimed to engage the cadets in sustainable practices and highlight the role of youth in environmental conservation.

Our cadets participated in the clean-up, equipped with gloves, garbage bags, and tools. They systematically collected litter, including plastic waste, food wrappers, and other debris, from various sections of the market. During the cleaning activities, cadets engaged with local vendors and shoppers, educating them about the harmful effects of littering and plastic pollution. Informational pamphlets on waste segregation and recycling were distributed. Cadets sorted collected waste into categories—biodegradable, non-biodegradable, and recyclable to promote proper waste management. We conducted this event between 9.00 am to 11.00 am with 37 cadets. This event was coordinated by Lt T S Prathibha Associate NCC Officer.

The environmental cleaning drive by NCC cadets at Avadi Market was a successful initiative that demonstrated the power of youth in driving community change. The activities not only resulted in a cleaner market but also instilled a sense of responsibility towards the environment among the citizens.

REPORT ON DRUG AWARENESS

National cadet corps of Nazareth college of arts and science conducted a "DRUG AWARENESS" on 26th June 2024. This aimed at educating students about the dangers of drug abuse and promoting a healthy, drug-free lifestyle. The event sought to engage students in discussions about the impacts of substance abuse on individuals and society.

We conducted a rally to inform people about the dangers of drugs, tobacco products. Police officers shared stories of struggle and recovery. This candid account resonated with students, emphasizing the reality of addiction and the possibility of recovery. We conducted this event between 9.00 am to 11.00 am with 38 cadets. This event was coordinated by Lt T S Prathibha Associate NCC Officer.

The Drug Awareness Campaign conducted was a resounding success. By educating students and providing resources for support, the initiative contributed to building a more informed and proactive community. Future campaigns should continue to address substance abuse issues, focusing on prevention and the promotion of healthy lifestyles among youth.

REPORT ON YOGA DAY

National cadet corps of Nazareth college of arts and science conducted an International Yoga Day, observed annually on June 21, aims to raise awareness about the benefits of yoga and promote physical and mental well-being. The 2023 theme, "Vasudhaiva Kutumbakam," focused on the holistic benefits of yoga in enhancing health and reducing stress.

Yoga session was held on the college grounds, attended by our NCC cadets and we practiced various yoga postures and breathing exercises to enhance flexibility and relaxation. Workshops were conducted focusing on different aspects of yoga, including Hatha yoga, Pranayama (breath control), and meditation techniques. The event was coordinated by Lt T S Prathibha Associate NCC Officer. 45 students were participated in this event. We conducted this event from 8.45 AM to 10.00 AM.

It effectively promoted the principles of yoga and its benefits for well-being among students. The event not only encouraged physical fitness but also fostered mental resilience, reinforcing the importance of holistic health in academic life. Plans are in place to continue such initiatives in the future to promote overall wellness

REPORT ON SAY NO TO PLASTIC

Academic year 2023-2024

National cadet corps of Nazareth college of arts and science conducted a "SAY NO TO PLASTIC" to raise awareness about the harmful effects of plastic pollution and promote sustainable alternatives. The initiative focused on educating participants about the environmental impact of plastic waste and encouraging them to adopt eco-friendly practices.

We conducted a rally to inform people about the dangers of plastic pollution, including its effects on marine life and ecosystems. We discussed sustainable alternatives to single-use plastics. We distributed reusable bags and biodegradable alternatives to encourage people to reduce their reliance on plastic products. Cadets clean-up drives were organized at college and near college area. We conducted this event on 31st July 2024 between 11:30 AM to 2:30 AM with 42 cadets. This event was coordinated by Lt T S Prathibha Associate NCC Officer.

The "Say No to Plastic" campaign was a significant step towards promoting environmental awareness and sustainability. The various activities not only educated people and cadets about the dangers of plastic but also inspired actionable changes in their lifestyles. Continued efforts and community engagement are essential for fostering a sustainable future free from plastic pollution.

REPORT ON KHADI MAHOTSAV

National cadet corps of Nazareth college of arts and science conducted a "KHADI MAHOTSAV" event on 26th October 2024 as an annual celebration dedicated to promoting khadi, the hand-spun and hand-woven fabric that symbolizes India's rich heritage and commitment to self-reliance. The 2024 edition focused on raising awareness about the significance of khadi in supporting local artisans and promoting sustainable fashion.

The festival featured cultural performances, including traditional dances and music that highlighted the cultural significance of khadi in Indian heritage. These performances engaged the students. We performed skits to promote khadi products in our society. We conducted this event between 9.00 am to 11.00 am with 43 cadets were participated in this event. This event was coordinated by Lt T S Prathibha Associate NCC Officer.

Khadi Mahotsav 2024 was a resounding success, celebrating the rich heritage of khadi while promoting sustainable practices and supporting local artisans. The diverse activities not only educated attendees about the importance of khadi but also encouraged a renewed appreciation for traditional craftsmanship. Future editions of the Mahotsav should continue to build on this momentum, further integrating khadi into contemporary fashion and lifestyle.

REPORT ON CONSUMER AWARENESS

National cadet corps of Nazareth college of arts and science conducted "CONSUMER AWARENESS" on 24th December 2024. This event aimed at educating students and people about their rights and responsibilities as consumers. The initiative sought to empower participants with knowledge to make informed purchasing decisions and to understand consumer protection laws.

This helps to promote the importance of consumer awareness in today's market and the need for individuals to be informed and vigilant. This event helps to understand about the consumer rights and responsibilities, identifying false advertising and misleading claims, learning how to file complaints and seek redress. We conducted this event between 12 PM to 6.00 PM with 45 cadets.

The Consumer Awareness Campaign organized by the NCC was a valuable initiative that successfully educated participants about their rights and responsibilities as consumers. By providing resources and facilitating discussions, the campaign empowered individuals to make informed purchasing decisions. Future initiatives should continue to build on this foundation, ensuring ongoing awareness and advocacy for consumer rights.

Seminar on 'Start Up Challenges'

The Department of Mathematics and IIC jointly organized a Seminar on 'Start Up Challenges' on 11th August 2023 at the College premises. The event aimed to foster the spirit of entrepreneurship among the UG final year students of B.Com and BBA department. The seminar was led by Mr.V.Sathya Murthy, General Manager, Directorate of Entrepreneurship and Innovation, SRM University, Kattankulathur.

He spoke about business incubators which means institutions that support entrepreneurs in developing their businesses, especially in initial stages. He also stressed the importance of innovation, risk taking and essential qualities of successful entrepreneurs. He emphasized the role of each stakeholder in nurturing and supporting startups in their growth journey. A total of 63 students actively participated in the seminar, which provided them with the valuable insights into the world of startups. The seminar has ignited the entrepreneurial spirit among the students and equipped them with the necessary knowledge to embark on their startup journeys.

The Department of Computer Science organized a "Session on E-Waste Management (EWM) Awareness program" in association with IQAC, on 18th August, 2023 for I year college students.

Program started with a prayer song. Ms. S.Jayasree, of II B. Sc (CS) welcomed the gathering. Ms.E. Mano Ranjitham, Vice-Principal and Head, Department of Computer Science, Nazareth College of Arts and Science given delivered the key note address. She spoke on the values of E-Waste Management. She explained the fundamentals of E-Waste Management. She also motivated the students by explaining the importance of E-Waste Management.

Mr.D.Parveen of III B. Sc (CS) made a speech that created awareness on E-Waste Management. He explained E-Waste and its impacts on the society. He clearly explained how the E-Waste was accumulated and classified. He listed E-Waste items into the categories such as home appliances, communication and information technology devices, home entertainment devices and other electronics utilities. He listed out the toxic material that affects the human health. He suggested various effective ways to dispose of E-Waste. He clearly explained how to recycle and reuse E-Waste items. He also displayed the percentage of E-Waste produced by various countries in the world with the help of the bar chart and presented the percentage of E-Waste produced by various states in the Tamil Nādu with the help of Pie Chart.

Ms.V. Nandhini of III B. Sc (CS) explained various pollutions created by E-Waste items. She clearly explained how the water, air and soil were polluted by E-waste items and affects the environment with practical examples. They created the awareness of E-Waste among II and III year students. They concluded their talk by suggesting the ways to manage the E-Waste. They clarified all the doubts of students in query session. A short video was played for the students to know how e-waste affects our county.

Students had an awareness and gained knowledge about E-Waste Management. They interestingly learned about the E-Waste Management. Feed Back Forms were circulated among

**POSTER PRESENTATION OF STARTUP
REPORT**

Objective: Showcase innovative ideas, receive feedback, and learn startup essentials.

No. of staff participation: 03

No. of student participation: 11 teams 22 students

Mode of the event : Offline

Date: August 29, 2023

Time: 10:30 AM -12:00 PM

The Poster Presentation of Startup Competition was held on August 29, 2023, which was a resounding success, showcasing the innovative potential of young minds in various entrepreneurial domains. The event brought together 11 teams of students, with 2 participants per team, who presented their groundbreaking startup ideas under the themes of Textile, Organic Products, Child Products, Health Products, and more.

The event commenced at 10:30 AM with a warm welcome and introduction to the competition's agenda. The participants were enthralled as Mr. Ajay Pradeep, a seasoned entrepreneur with extensive experience, was introduced as the esteemed judge for the day.

Mr. Pradeep's motivational speech, where he shared his entrepreneurial journey, set the tone for the day. His insights into the challenges and triumphs he faced resonated with the participants, inspiring them to pursue their own entrepreneurial dreams.

During the presentation sessions, Mr. Pradeep's engagement with each team was remarkable. He posed thought-provoking questions, encouraging participants to think critically about their business concepts. As the teams presented their ideas, he not only evaluated their concepts but also provided constructive feedback and valuable suggestions for improvement. His hands-on approach instilled a sense of learning and growth among the participants.

The Q&A sessions after each presentation were particularly enlightening. Mr. Pradeep's incisive questions spurred participants to delve deeper into their ideas, demonstrating their understanding of market dynamics, customer needs, and scalability. The students' responses showcased their research and preparation, reflecting their dedication to their startup concepts.

Mr. Pradeep's meticulous evaluation was reflected in the comprehensive score sheets he maintained. Each team's presentation, response to questions, feasibility, and innovation were systematically assessed. This ensured a fair and transparent evaluation process.

The program concluded with a vote of thanks, expressing gratitude to all participants, the judge, and the organizing team. However, the interaction did not end there. After the formal proceedings, students continued to approach Mr. Pradeep for further guidance on their startup development. His willingness to extend his support and insights post-event showcased his commitment to nurturing the next generation of entrepreneurs.

Learning Outcome Improved pitch, refined business plan, valuable networking, and practical entrepreneurial skills.

E-Waste Drop-Off @ Nazareth College

Report

The Department of Computer Science organized an Event on "E-Waste Drop Off @ Nazareth College" in association with IQAC, on 19th August. This event was organized with the primary objective of contributing towards the achievement of Sustainable Development Goal (SDG) Target 12.5, which aims to reduce E- waste through prevention, reduction, recycling, and reuse.

Program Highlights

1. School Outreach

In line with our commitment to promote environmental responsibility, we proactively informed local schools about the E-Waste Drop-off program. Schools were encouraged to participate and spread the word to their students and staff members. The goal was to create awareness and engage educational institutions in sustainable e-waste disposal practices.

2. Campus Engagement

Prior to the event, we conducted awareness sessions within Nazareth College, targeting both students and staff members. Informational materials were distributed to educate everyone on the importance of proper e-waste disposal. Clear instructions were provided on how to participate in the program.

3. E-Waste Collection

On August 19, 2023, our dedicated team of volunteers set up collection points at strategic locations on the college campus. These collection points were easily accessible and prominently marked. People from various walks of life, including students, staff, and community members, were encouraged to bring their electronic waste for disposal.

4. Efficient Collection Process

Trained personnel ensured that the e-waste collection process was smooth and efficient. They assisted participants in categorizing their electronic waste and provided guidance on how to dispose of batteries, cables, old devices, and other e-waste items safely.

5. Environmental Responsibility

Principal

Nazareth College of Arts & Science
Kovilpathagai Main Road, Kannadanallur.

All collected e-waste was handled with the utmost care to minimize any potential environmental impact. Hazardous materials were separated and disposed of in accordance with local regulations, while recyclable components were sent to certified recycling centers.

6. Quantifiable Impact

The success of the event can be measured in terms of the significant amount of e-waste that was responsibly collected and diverted from landfills. The specific statistics regarding the amount and types of e-waste collected will be provided in a separate report to be published after the event.

Conclusion

The E-Waste Drop-off event held at Nazareth College of Arts and Science on August 19, 2023, played a crucial role in raising awareness of responsible e-waste disposal practices. By engaging schools, students, and the local community, we took a significant step towards achieving SDG Target 12.5.

We would like to extend our heartfelt gratitude to all participants, volunteers, and supporters who contributed to the success of this event.

Future Initiatives

We are committed to continuing our efforts in promoting sustainable practices and addressing environmental challenges. Future initiatives may include educational programs, recycling drives, and further engagement with the community to foster a culture of environmental responsibility.

EWASTE DISPOSAL ACTIVITY

Report

The Department of Computer Science organized an Awareness Program on "E-Waste Management" in association with IQAC, on August 31, 2023 as an outcome of E-Waste Management Project. It planned to start the awareness program among school and college students and take it to the public. It demonstrated E-Waste disposal event. Ms.Kaviyarasi, Assistant Professor, Department of Computer Science, approached Virogreen India Pvt Ltd, Chennai a concern regarding E-waste management. The concern gave the quotation for the E-Waste products. Ms.Mano Ranjitham, Vice Principal and Head, Department of Computer Science, Ms.R.Kaviyarasi Assistant Professor, Department of Computer Science, Ms.Meenakshi Head Lab Admin, Mr.Michael Raj, Lab Admin and Mr.Shanmugaraj .Lab Admin handed over all the e-waste materials to the person who came to collect them from the college. The person who was in charge of this collected the products on the same day and the amount was transferred to the college account through RTGS. The person concerned assured that the certificate will be provided within 30 days from the date of the collection of material. This programme enlightened students on proper disposal of e-waste products.

REPORT

On February 22, 2024, the IIC of Nazareth College of Arts & Science in collaboration with the Department of Computer Science, conducted an event in online mode titled "Innovate, Iterate and Code – A design thinking journey for Computer Science Minds". The event began with the welcome address and chief guest introduction by Ms. Muthulakshmi, II B.Sc. CS followed by the Expert talk by the distinguished chief guest, Ms. G. Jasmin, Scrum Master, TCS, Chennai. A total of 74 including 69 students and 5 staff participated in the event.

The objective of the event is to enhance the programming skills of the students.

Ms. G. Jasmin delivered a talk on enhancing coding skills for students, covering key strategies such as consistency, honing program logic through writing and practicing code, and the importance of regular revision. She emphasized the value of engaging with programmer communities to broaden one's knowledge base and staying updated with today's IT requirements. Additionally, she recommended several websites offering free online certifications to bolster skill sets. Overall, her presentation provided practical insights on how students can prepare effectively for the evolving demands of the IT industry.

The outcome of the program provided insights on how the students should face the evolving demands of the IT industry.

Workshop on Cyber Security

(An IQAC Initiative)

REPORT

On February 22, 2024, the IIC of Nazareth College of Arts & Science and IQAC, in collaboration with the Department of Computer Science, orchestrated an engaging event titled "Workshop on Cyber security". The event started or had begun with the welcome address and chief guest introduction by the IIC Convener Ms. S. Abirami followed by the workshop by the distinguished chief guest Mr Chandraprakash Sankar, Founder and Director of Hackers InfoTech, Tirupur.

The objective of the event was to educate students, staff members, and external participants about the fundamental principles of cybersecurity and equip them with the knowledge and skills necessary to protect themselves and their organizations from cyber threats.

The event gathered around 50 students, 5 staff members, and 20 external participants, including staff from neighboring schools. The session commenced with a comprehensive introduction to cybersecurity by a knowledgeable resource person. They covered fundamental concepts such as cyber attacks, hacking, cybersecurity measures, and the role of ethical hackers.

Specifically, the discussion delved into the importance of password security, including guidelines for creating strong passwords and the recommended frequency for changing them. The resource person elucidated on the methods employed by hackers to bypass password protections and emphasized the significance of robust password management practices.

Furthermore, attendees gained insight into common cybercrimes, with the resource person providing demonstrations to illustrate how hackers deceive users and the potential repercussions of such actions. Cyberbullying and pertinent cyber laws, including sections 354d and 66d, were also addressed to highlight the legal aspects of online misconduct.

Additionally, the session covered practical tools and techniques for cybersecurity, including the utilization of Google dorks and resources like VirusTotal.com. The demonstration of Gratify IP Logger served to underscore the importance of understanding and mitigating potential online threats.

Principal
Nazareth College of Arts & Science

Overall, the event served as an informative platform for participants to enhance their understanding of cybersecurity fundamentals, learn about prevalent cyber threats, and explore strategies to safeguard against them.

Learning outcome : The Student felt empowered to apply the acquired knowledge and skills to protect themselves, their devices, and their organizations from cyber threats effectively.

The Department of Computer Science, in collaboration with IQAC, orchestrated an electrifying extravaganza on the 22nd of September 2023 – La Corsa'23! This extraordinary event was the talk of the town, and here's what went down.

Inauguration to Remember: Mr. Sanjay Kumar H, the IT Association President of III B.Sc CS, kick-started the festivities with a warm welcome to the enthusiastic gathering. The grand inauguration was graced by none other than Ms. E. Mano Ranjitham, Vice Principal and Head of the Department of Computer Science, she bestowed her blessings upon the event.

La Corsa'23 boasted a stellar lineup of activities, including five captivating on-stage events and two thrilling off-stage events. Students from various colleges flocked to be part of this tech extravaganza! As the day drew to a close, Mr. D. Parveen, the IT Association Secretary of III B.Sc CS, welcomed everyone to the mesmerizing valedictory session. Dr. E. Mary Angeline, Principal of Nazareth College of Arts and Science, graced the occasion with her presence. The icing on the cake was the introduction of our esteemed Chief Guest, Mr. Hari Pravin, Co-Founder, Chief Product Officer and Developer at Krazy Buddy Technologies was introduced by Ms.S Abirami, Assistant Professor, Department of Computer Science.

Mr. Hari Pravin enthralled the audience with his insights on entrepreneurship and the rising tide of AI. He masterfully wove together the worlds of entrepreneurship and AI, leaving the audience inspired and ready for action. His message was clear: seize every opportunity without wasting a single minute!

The winners and runners-up were honoured with certificates and prizes, adding an extra layer of excitement to an already memorable day. A total of 250 participants immersed themselves in this enlightening experience. Ms. V. Nandhini, IT Association Treasurer of III B.Sc (CS), proposed a vote of thanks to all those who made La Corsa'23 a resounding success. La Corsa'23 has left an indelible mark, providing students with valuable exposure and empowering them to chase their dreams.

Seminar on Intellectual Property Rights

REPORT

Date: 31st August 2023

Mode of session: Online Google Meet

Participants: B.Sc Computer Science Students, Nazareth College of Arts and Science

The session on Intellectual Property Rights (IPR) served as an informative and insightful exploration of the fundamental principles and categories within the realm of intellectual property. Intellectual Property Rights are of paramount importance in contemporary society, as they play a pivotal role in safeguarding innovations and creative works.

Dr. Mrs. L. N. Jayanthi, a distinguished academician with a rich academic background, conducted the seminar on Intellectual Property Rights (IPR). Dr. Jayanthi holds a Master's degree in Commerce (M.Com.), a Master's in Philosophy (M.Phil.), an MBA, and a Ph.D., demonstrating her deep expertise in the field. Additionally, she has achieved the State Eligibility Test (SET) and the National Eligibility Test (NET), further enhancing her qualifications.

As a faculty member at Saveetha College of Liberal Arts and Sciences, affiliated with Sathyabama Institute of Science and Technology (SIMATS), Dr. Jayanthi brings a wealth of knowledge and experience to the seminar. Her academic credentials and research background make her well-suited to lead discussions on complex topics such as intellectual property rights.

Under her guidance, the seminar provided participants with valuable insights into the world of intellectual property, covering crucial aspects such as patents, trademarks, copyrights, and trade secrets. Dr. Jayanthi's expertise ensured that attendees received a comprehensive understanding of these concepts and their significance in various industries.

The seminar led by Dr. Mrs. L. N. Jayanthi was undoubtedly a valuable educational experience, allowing participants to grasp the intricacies of intellectual property rights and their implications for innovation, creativity, and business in the modern era. Her commitment to disseminating knowledge and fostering a deeper understanding of IPR greatly benefited those in attendance.

REPORT

On February 23, 2024, the IIC of Nazareth College of Arts & Science and IQAC in collaboration with the Department of Computer Science, conducted an event in e-sharing mode titled "e-Sharing: Software Testing". The event began with the welcome address and chief guest introduction by Ms. Kushboo, III B.Sc. CS followed by the Expert talk by the distinguished chief guest, Mr. Jeba Kumar Rajasingh, Senior Associate, CTS, Chennai. A total of 53 including 50 students and 3 staff participated in the event.

The objective of the event is to impart knowledge on Software Testing process and Tools in IT.

The outcome of the program provided insights on how the students should face the evolving demands of the IT industry.

The resource person provided an overview of software testing, covering various types such as UI and API testing, alongside insights into the Agile development process. They delved into the importance of Java, Python, and Selenium within this domain, reflecting current industry demands. The emphasis was on how students can align their preparation with industry needs, likely focusing on acquiring proficiency in these programming languages and testing frameworks, understanding Agile methodologies, and honing their testing skills to meet the evolving demands of the software industry.

Learning outcome:

1. The students gained knowledge on the current demands within the software industry, particularly in terms of testing expertise and programming skills.

REPORT

On March 27, 2024, the IIC of Nazareth College of Arts & Science in collaboration with the Department of Computer Science, conducted an event titled "Workshop on Prototype Design and Development" at 10 am. The event began with the welcome address and chief guest introduction. The workshop by the distinguished chief guest was Mr T Akash, IIM, Trichy.

The objective of the "Prototype Design and Development" workshop, featured by Mr. T Akash, was to impart a comprehensive understanding of the five phases of design thinking and to equip participants with practical skills for transforming ideas into tangible prototypes through interactive examples and hands-on experience. Around 90 students and 3 staff participated in the event.

Mr. T Akash masterfully commenced the session by introducing the concept of design thinking, emphasizing its critical role in today's innovation-driven landscape. He focused on the workshop's objective, that to not only impart theoretical knowledge but also to provide hands-on insights into bringing an idea to life through the disciplined approach of design thinking.

Five Phases of Design Thinking: The crux of the workshop revolved around the five phases of design thinking, which Mr. Akash elaborated upon with great detail and engaging examples:

1. **Empathise:** Mr. Akash initiated the discussion by focusing on the 'Empathise' phase, underscoring the importance of understanding the user's needs, problems, and emotions. He shared captivating case studies where empathy led to groundbreaking innovations, reminding participants that successful designs are user-centric.
2. **Define:** Transitioning smoothly into the 'Define' phase, he stressed the necessity of articulating the user's needs and problems clearly. Through interactive exercises, he demonstrated how a well-defined problem is halfway to being solved.
3. **Ideate:** The 'Ideate' phase was presented not just as a step but as an open field for creativity. Mr. Akash encouraged participants to think beyond conventional boundaries and showcased methods to foster creativity within teams, using real-world examples where unconventional ideas led to remarkable solutions.

4. **Prototype:** As the heart of the workshop, the 'Prototype' phase was approached with comprehensive detail. Mr. Akash shared his experiences in developing prototypes, emphasizing the iterative process of creating, testing, and refining the product. The hands-on session allowed participants to engage in prototype development, offering a practical understanding of translating ideas into tangible forms.
5. **Test:** Finally, the 'Test' phase was addressed with the view that this stage is not the end but a part of an ongoing process of improvement. Mr. Akash shared insights on various testing methodologies, how to interpret feedback, and the importance of resilience in the face of setbacks.

Learning Outcome: Participants gained a deep understanding of the design thinking process, mastering the art of empathizing, defining, ideating, prototyping, and testing to turn innovative ideas into practical solutions.

REPORT

The Objective of the program is to encourage a The future of web technologies in UI/UX designing. The Program is organized on 13th October 2023. The Chief Guest of the program Wereas follow. It is to cultivate entrepreneurship activities among the college students and to showcase their innovative ideas Mr. J. James Nickson (Manager UI/UX at Scientific Games (LnW)). One Hundred students from B.Sc. Computer Science and BCA departments were participated in the demo session and showcased their UI/UX development in following topic as listed below

1. The future of web technologies.
2. About Web Technologies.
3. Front-end Technologies.

There was a questions and answer session at the end of the programme. Finally the coordinator proposed a vote of thanks.

Academic 2023-2024 (Even semester)

Report

Theme: Applying Design Thinking in Computer Application Innovation

Objective: To encourage students to applying design thinking in Computer application innovation

Count: 50 students, 5 staffs

The Department of Computer Applications jointly with IIC organized a Competition "Applying Design Thinking in Computer Application Innovation" on 23/01/2024. The Resource person Dr.M.Thiyagaraj addressed the important thinks of learning and New Innovation in Computer Application, and explained what innovation is, what design thinking and design thinking phases is. III BCA B students Received participation certificates. The students were won the prizes and got the participated certificates. The vote of thanks was proposed by Mr Oswald, III BCA B proposed in the program.

Outcome: Students acquired knowledge on Design thinking in Computer Application.

Seminar on Cyber Security

Topic: Seminar on Cyber Security

The seminar on cybersecurity featured a guest lecture by Mrs.Chithra from Hindu College, an esteemed expert in the field. The seminar was conducted on 13th February 2024 in the lab. The event started with a prayer song and welcome speech by Ms.Anupriya III BCA A. There were 60 students who participated in the Seminar.

The seminar began with an overview of various cyber threats prevalent in today's digital landscape, including malware, phishing, ransomware, and social engineering attacks. Mrs.Chithra elucidated the tactics used by cybercriminals to exploit vulnerabilities in systems and networks.

She emphasized the critical importance of cybersecurity in both personal and organizational contexts. The speaker highlighted the potential consequences of cyber attacks, such as financial loss, data breaches, and reputational damage.

Mrs.Chithra discussed emerging trends and technologies in cybersecurity, such as artificial intelligence (AI) machine learning, blockchain, and the Internet of Things (IoT). Attendees learned about the potential applications of these technologies in bolstering cybersecurity defenses and mitigating emerging threats.

The guest lecture included insightful case studies and real-world examples of cyber attacks and security breaches, offering attendees practical insights into the tactics employed by cybercriminals and the lessons learned from such incidents.

We had an interactive Q&A session, during which students had the opportunity to engage with the speaker, seek clarification on key concepts, and share their own experiences and challenges related to cybersecurity. The interactive nature of the session facilitated knowledge exchange and fostered a collaborative learning environment.

The program concluded with a vote of thanks proposed by Mr.Dinesk Kumar III BCA A. Attendees gained a deeper understanding of why proactive cybersecurity measures are essential in safeguarding sensitive information and ensuring business continuity. The guest lecturer gave an idea regarding the Cyber Security Certifications course to the students.
